If you enjoy kisses but dread the idea of getting a disease, then the Kissing Shield is a "must have" item. This germ barrier consists of a thin latex membrane artfully stretched over an attractive and romantic heart shaped frame.

The inventor states the shield is for kissing the intended recipient of the users affection and is also useful for politicians when kissing babies. Hey, they got our vote.

키스를 즐기시는 분들에게 희소식, 키스는 좋아하지만 질병같은 문제 때문에 걱정하시는 분들은 반드시 이용하는 것이 바람직한 황당한 발명... 어린 아기들에게 뽀뽀할 때는 반드시 필요할 것 같은데, 어떨런지?

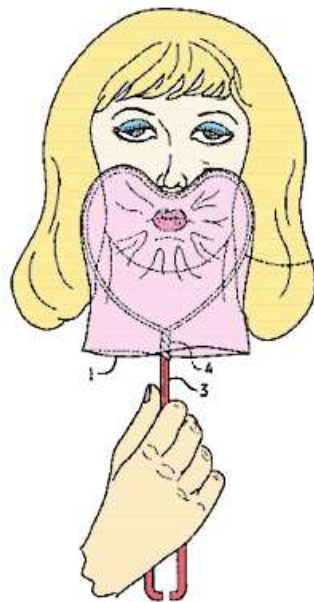

FIG. 1

발명소개광장(16) - Mitt Cap

공개번호	US Patent 5,542,129 / Issued 1996
제 목	Convertible hat and catching glove
발명자	Douglas G. Munoz

Picture yourself at a baseball game, sitting in the sun on a warm day, tan and relaxed when all of a sudden a pop fly is whacked your way. What to do? Nonchalantly remove your Mitt Cap, insert your digits into the finger panels and make a flawless catch, amazing your friends and neighboring fans. Every baseball fan needs one, and with about the same odds as winning the lottery, you may someday actually get to use it.

휴일날 야구장에 아이들과 갔을 때, 햇빛을 피해 모자는 거의 필수적으로 가져간다. 하지만, 파울볼이나 홈런볼이 관중석으로 날아왔을 때, 야구장갑이 절실히 필요한데 만약 이 발명처럼 모자가 장갑으로도 활용될 수 있다면 얼마나 편리할까?
