

공정 시스템 및 제어 교육의 현재와 미래

이재형<sup>†</sup>

KAIST

(jayhlee@kaist.ac.kr<sup>†</sup>)

In this talk, I will summarize a personal view of the current state of process systems engineering and control education and try to provide some perspective. I will especially focus on the past vs. the present as well as the Korea vs. the rest of the world. The talk will conclude with some prospective of future educational needs in this area.
